Effective immediately, the following procedure governs correction of Criminal Division case records in which, as a result of erroneous information from the Prosecutor's Office, the charges listed in the electronic case file and/or Register of Action (ROA) are different from those the Defendant was actually charged with, preventing accurate bindover and processing of cases.

The Office of the Wayne County Clerk shall enter a Disposition Charge code provided by the Court's ITSB, "Null Filing," to clearly indicate when an erroneous charge is listed in the case file and/or ROA. Entry of the code is authorized in all cases in which the error occurs, pursuant to MCR 8.110.
