Title: FORENSIC FAMILY CLINICIAN

SUMMARY:

Under the supervision of the unit supervisor, this position, assists the Court in resolving domestic relations disputes by providing psycho-social assessments and/or mediation services; provides families involved in domestic relations disputes with alternative dispute resolution and evaluations concerning child support, custody, parenting time, and other family issues in accordance with State and Federal law; provides assistance, psychotherapeutic services, and assessment services to consumer population including children, families, and adults involved with the Court; and serves the Court in a capacity that provides assistance to jurists. Employees in this title are expected to maintain a professional appearance and demeanor.

ESSENTIAL FUNCTIONS:

- Develops and provides evaluative services to jurists through parental involvement, assessments/mediation, and collateral contacts.
- Provides strength-based treatment planning and therapy services via home-based or outpatient therapy, including case management, individual, family and group therapy.
- Supervises graduate level students (interns) as necessary; and serves as an administrative backup to the unit supervisor.
- Assists with planning, development, and the implementation of programs and procedures.
- Provides recommendations to the Court regarding child support, and the custody, change of domicile, and parenting time of children.
- Provides families with referrals and expert advocacy in all areas of need, by attending Individual Education Planning Committee (IEPC) meetings, expulsion hearings and Department of Health and Human Services (DHHS) hearings/meetings.
- Ensures that documentation requirements of case activities are met by maintaining current case and statistical records, including as applicable complying with all Court, Clinic, Community Mental Health, Medicaid and Commission on Accreditation of Rehabilitation Facilities (CARF) standards.
- Generates documents and correspondence, including composition, proofreading, and checking work for accuracy.
- Provides the Court with reports, written assessments, evaluations, signed agreements and expert testimony, on all cases where a youth is found not competent or not responsible, or youth is receiving treatment services.
- Selects, administers, and interprets psychological tests to be incorporated into written assessments.
- Facilitates Family Assessment, Mediation and Education Programs or Parent Resource Training (Trauma Focused-Cognitive Behavioral Therapy Model) by presenting educational information to litigants/consumers and community agencies.
- Performs other duties as assigned.
